How to Find Finger Size

### TO GET FINGER SIZE

Take a narrow strip of paper or string and wrap it snugly  
around the largest part of the finger. Then cut off so that the  
ends just meet. Place one end of paper or string at point A  
on scale at left. Then read figure at the other end, which is  
your RING SIZE. If your size falls between two numbers,  
order 1/2 size larger than smaller number.
